

NIWC Atlantic

Delivering information warfare solutions that protect national security.

Naval Information Warfare Center (NIWC) Atlantic is a Navy engineering and Information Technology (IT) command and part of the Naval Research and Development Establishment (NR&DE).

We develop and deliver capabilities that expand our information warfare advantage. Includes: communication systems (radios), networking systems (routers/switches), cyber operations (red team/forensics/ network defense), intelligence, surveillance, reconnaissance (sensors/decision support applications), business systems (benefits/personnel) and information security.

Mission

Conduct research, development, prototyping, engineering, test and evaluation, installation, and sustainment of integrated information warfare capabilities and services across all warfighting domains with an emphasis on Expeditionary Tactical Capabilities & Enterprise IT and Business Systems in order to drive innovation and warfighter information advantage.

Vision

WIN THE INFORMATION WAR

Unique Labs and Capabilities

- National Cyber Range Complex
- Surface Ship Test and Integration Facility
- PNTLab and Network Integration Engr. Facility/CANES
- Common Submarine Radio Room production & testing
- NIWC Atlantic National Security Operations Center/ NAVWAR Red Team (NSA, USCYBERCOM and DOD Cyber Red Team Accredited)
- Electromagnetic and Interference Testing Facility Poseidon Park
- Environmental test labs
- Expeditionary Systems Integration & Innovation Center
- Marine Corps Installations Command Electronic Security Systems
- 5G Comms. Capability and Outdoor Optical Range
- Cyber Forensics Criminal Investigations Laboratory
- Cyber Computer Network Defense Laboratory
- DOD Component Enterprise Data Centers and Networks and Satellite Comms Gateways
- Software Defined Radio & RF Testing, Commercial and DOD Satellite Comms production and installation
- Small Autonomous Unmanned Systems Range (SAUSR)
- Strategic Artificial Intelligence Lab (SAIL)
- Vehicle C4I systems integration, testing and production facility
- Global Distance Support Help Desk
- Air Traffic Control systems development and installation

By the Numbers (FY23)

- \$9.3B U.S. Economic Impact
- \$4.53B Total Obligation Authority
- 4,993 Total Workforce
 - 4,865 Civilian
 - 128 Military
 - ~9,000 Contractors
- Total Facilities: 117 bldgs., 2.4M SF
- 50% Total Small Business
- 265 Small Businesses
- 89% Competition
- \$3.85B Total Obligation Authority
- \$2.2 Total Obligations

NIWC Atlantic Office of Small Business Programs

Providing the resources and connections needed for small businesses to support the NIWC Atlantic mission to deliver information warfare solutions that protect national security.

Visit the NIWC Atlantic 'For Industry' public page for helpful information. <https://www.niwcatlantic.navy.mil/industry/>

NAVWAR Opportunities

- NAVWAR, NIWC Pacific and NIWC Atlantic opportunities can be found on our e-commerce website:
 - <https://e-commerce.dc3n.navy.mil/> Under NIWC Atlantic you will find our solicitations, market surveys, special notices and other information.
 - Task Order Forecast and Long Range Acquisition Forecast are located under the "News tab".
- Seaport- NxG Multiple Award Contract (MAC)
 - <https://www.seaport.navy.mil/> SeaPort-NxG is the Navy's electronic platform for acquiring support services in 23 functional areas including Engineering, Financial Management, and Program Management.

Small Business Outreach Activities

- Small Business and Industry Outreach events provide NIWC Atlantic leadership engagement and networking opportunities.
 - In the Charleston and New Orleans area the event is hosted by the Charleston Defense Contractor's Association (CDCA) <http://www.charlestondca.org>
 - In the Tidewater area, the event is hosted by the Tidewater Association of Service Contractors (TASC) <http://tasc-tqic.org>

Information Warfare Research Project (IWRP)

- Advances Naval and Marine Corps information warfare capabilities through a consortium that supports research, development and prototyping. <https://www.theiwrp.org>

Palmetto Tech Bridge

- Draws on talents from across industry and academia while focusing and facilitating innovative force in developing dual-use solutions to meet national defense needs.
- Enhances the region's economic strength with innovative commercial products.
- <https://www.niwcatlantic.navy.mil/palmetto-tech-bridge/>

NavalX

- Establishes connections between government and industry by leveraging our suite of digital products to share knowledge and accelerate innovation.
- Digital Engagement Platform built by NavalX <https://www.secnav.navy.mil/agility/Pages/default.aspx>

NIWC Atlantic OSBP Contact Information

- General mailbox niwc_lant_osbp.fct@us.navy.mil
- John O'Connor, Deputy Director, OSBP john.r.oconnor7.civ@us.navy.mil
- Elizabeth Cecchetti, Small Business Professional, OSBP elizabeth.m.cecchetti.civ@us.navy.mil

NIWC Atlantic Departments and Resources

Warfighting Departments

- **Fleet C4I and Readiness Department:** Ensuring information warfare superiority through collaboration, alignment and engineering excellence.
- **Expeditionary Warfare Department:** Rapidly delivering C4ISR, Cyber and IT systems and engineering services to meet the information warfare needs of the Marine Corps and Special Operations Command.
- **Enterprise Systems Department:** Rapidly identify and implement affordable Enterprise IT solutions by promoting innovation, developing our personnel, and forming strategic partnerships across NIWC Atlantic and with our customers.
- **Shore C2ISR and Integration Department:** Engineering and fielding systems supporting operational forces overseas and readiness missions stateside.
- **Science and Technology Department:** Researching, prototyping and managing advanced technology development ensuring technical superiority.

Check out the NIWC Atlantic command overview on our public webpage <https://www.niwcatlantic.navy.mil/about/command-overview/>

NIWC Atlantic's Technology Focus Areas to Achieve Technology Goals <https://www.niwcatlantic.navy.mil/technology/>

Artificial Intelligence: Provide warfighters with analytics-driven, data-informed, and technology-empowered capabilities to drive decision advantages and optimal mission outcomes.

Assured Communications: Addresses the demand for resilient, and sometimes covert, wired and wireless communications in degraded and/or denied environments.

Cloud Computing: IT modernization and digital transformation for resilient infrastructure, platform and software services.

Cybersecurity: Provides protection from unauthorized use of and/or defends electronic data, hardware, software from disruption or of the services they provide.

DevSecOps: Refers to replacing siloed Development, Security and Operations to create multidisciplinary teams that collaborate with shared and efficient practices and tools.

Mobility: Provide Wireless Technology and enterprise access for the warfighter to engage with a mobile environment and applications, anytime, anyplace.

Model-Based Systems Engineering (MBSE): Technologies used to support the development, management and application of virtual constructs of varying fidelity across the spectrum of systems engineering.

Subcontracting for Small Businesses

FY23 DoD Goals

- Prime Contracting 22.43%
- Subcontracting 30%
- Subcontracting goals and performance FAQs <https://business.defense.gov/Acquisition/Subcontracting/>
